Dear Shareholders:

On behalf of the Board of Directors, I hereby present to you the Annual Report and Financial Statements of Nova MSC Berhad ("Company") and its subsidiaries ("Group") for the financial year ended 31 March 2007.

The Year under review

It has been a particularly trying period for the Group over the last few years but we have made significant progress. For the financial year ended 31 March 2007, the Group recorded revenue of RM17.7 million as compared to RM14.7 million in the previous year. The Group also recorded a profit before taxation of approximately RM0.6 million as compared to a loss before taxation of RM9.8 million in the previous year. The significantly better result was possible mainly due to positive yield from our focused approach to implement business and cost control measures during the past years. The improvement was mainly due to higher revenue achieved coupled with a write back of impairment loss on intangible asset of RM1.8 million and bad debt recovered of RM0.4 million. Earning per shares was recorded at 0.18 sen as compared to loss per shares of 3.66 sen for the previous financial year.

New Shares Issued

During the financial year, the Company undertook the following issuance of new ordinary shares of RM0.10:

- 1. the issue of 13,000,000 new ordinary shares of RM0.10 each of the Company at RM0.107 per share pursant to the private placement exercise for cash;
- 2. the issue of 11,865,000 new ordinary shares of RM0.10 each of the Company at par from the exercise of the Company's Employees' Stock Option Scheme.

The proceeds of approximately RM2.5 million had been fully utilized for the working capital of the Group during the financial year under review. Shareholders' fund as at 31 March 2007 stood at approximately RM18.0 million as compared to RM14.4 million as at 31 March 2006.

Research and Development

R&D is a very essential component for every successful software company in driving business growth and improving operational efficiency. The Group recognizes this and hence, for the financial year ended 31 March 2007, expenditure of approximately RM6.0 million was incurred to enhance the current suite of products namely, PAVO™, FORNAX™ and VESALIUS™. The Group intends to further develop new functional modules embarked in our current suite of products in the coming years.

Business Direction

The Group operates in a highly competitive environment. However, we believe that with the improvement in the regional economies, the demand for e-government and healthcare solutions is also expected to increase.

Plans implemented since our last financial year had started to show result and hence, the Group will continue its effort to improve its financial performance and position. These plans include marketing efforts to seek customers outside the traditional markets to improve revenue, cost reduction exercises to improve efficiencies and fund raising exercises to ensure that the Group have sufficient financial resources for its operations. Hence, the Group is cautiously optimistic about the challenges that the Group will face in the new financial period.

Appreciation

On behalf of the Board of Directors, I would like to express my sincere appreciation to the management and staff for their hard work and dedication. I would also like to thank our customers, bankers, suppliers and business partners who have given us their unwavering support. I am also taking this opportunity to thank fellow Board Members for their invaluable counsel and contributions.

As mentioned in my letter to you last year, "Together with continued commitment, we stand ready to embrace and overcome the challenges in the year ahead."

The Directors also have responsibility for taking such steps as are reasonable to safeguard the assets of the Group for prevention and detection of fraud and other irregularities.

4.2 Audit Committee

The Board has set up an Audit Committee, which composition is in compliance with the relevant regulatory requirements. The report of the Audit Committee is found on pages 12 to 15.

An appropriate relationship is maintained with the Company's external and internal auditors through the Audit Committee. The Audit Committee has been explicitly accorded the power to communicate directly with both external and internal auditors.

4.3 ESOS Committee

The ESOS committee was established to administer the Company's ESOS. The Committee's principal function is to ensure that the Scheme is administered in accordance with the by-laws approved by the shareholders of the Company. The present ESOS was implemented on 31 October 2005 and is governed by the By-Laws that were approved by the shareholders on 28 September 2004.

The Group's Statement of Internal Control is set out on page 11 of this Annual Report.

4.5 Relationship with Auditors

The Group would continue to maintain a close and transparent relationship with its Auditors in seeking professional advice and ensure compliance with the appropriate accounting standards. The role of the Audit Committee in relation to the auditors may be found in the Report of the Audit Committee on pages 12 to 15.

4.6 Compliance with the Code

The Board has to the best of its ability and knowledge complied with the Best Practise in Corporate Governance set out in Part II of the Code. The Board expects to continue to improve and enhance the procedures from time to time, especially in both corporate governance and internal control.

Statement of Internal Control

INTRODUCTION

The Malaysian Code on Corporate Governance stipulates that the Board is required to maintain a sound system of internal controls to safeguard shareholders' investments and the Group's assets. The Board is pleased to include a statement on the state of the Group's internal controls in accordance with paragraph 2.14 (s), Guidance Note 2 of the Malaysia Securities Exchange Berhad's Listing Requirements for the MESDAQ Market.

The Board of Directors is committed to maintaining a sound system of internal controls in the Group and is pleased to outline the nature and scope of the internal controls of the Group during the financial year.

The Group's system of internal controls includes establishing an appropriate control environment and framework as well as reviewing its adequacy and integrity. The system of internal controls covers, inter–alia, financial, operational and compliance controls and risk management procedures.

BOARD RESPONSIBILITY

The Board acknowledges its responsibility for maintaining a sound system of internal controls and for implementing risk management practices for good corporate governance. However, the Board recognises that reviewing the adequacy of the Group's system of internal controls is a concerted and continuous process, designed to manage rather than eliminate the risk of failure to achieve business objectives.

In pursuing these objectives, internal controls can only provide reasonable but not absolute assurance against material misstatement or loss.

The Board confirms that there is an informal on-going process for identifying, evaluating and managing the significant risks faced by the Group for the financial year under review and up to date of approval of the annual report and financial statements.

KEY PROCESSES OF INTERNAL CONTROL

The key processes that the Board have established in reviewing the adequacy and integrity of the system of internal controls, are as follows:

- The Group has in place an organisational structure that supports business and operational requirements, with clearly defined levels of responsibilities, lines of accountability and delegated authority with appropriate reporting procedures.
- The Board is assisted by the Audit Committee in specific areas in order to enhance the system of internal controls and corporate governance.
- The Executive Directors are involved in the day-to-day business operations of the Group. Scheduled informal
 operational and management meetings are held with senior management to identify, discuss and resolve
 business and operational issues. Significant matters identified during these meetings are highlighted to the
 Board.
- The Company's subsidiaries are accredited with ISO9001:2000. Documented internal procedures and standard operating procedures have been put in place and surveillance/certification audits are conducted on a periodic basis by assessors of the ISO certification body to ensure that standard operating procedures are being adhered to.

INTERNAL AUDIT

Presently the Group does not have an internal audit department. The Company had engaged a professional consulting firm in March 2004 to carry out the internal audit services, which provides support to the Audit Committee in discharging its duties with respect to the adequacy and integrity of the system of internal controls within the Group. During the year under review, the third party internal auditors carried out four audits based on the internal audit plan approved by the Audit Committee. The audit findings are deliberated and resolved with the senior management. The Audit Committee, on behalf of the Board, reviews internal control issues identified and recommendations from reports by internal and external auditors on a regular basis.

Some internal control weaknesses were identified from the internal audits conducted and are being addressed by management. None of these weaknesses have resulted in any material loss that would require disclosure in the Group's Annual Report.

Audit Committee Report

The Audit Committee was formed on 1 July 2003 as a committee within the Board of Directors primarily responsible to assist the Directors in carrying out their duties in relation to accounting and financial reporting of the Group and the Company.

Notes to the Financial Statements - 31st March 2007

1. BASIS OF PREPARATION

(a) The financial statements of the Group and the Company are prepared on the historical cost basis except as disclosed in the notes to the financial statements, and comply with Financial Reporting Standards in Malaysia and the provisions of the Companies Act, 1965 on a going concern basis.

As at 31st March 2007, the accumulated losses of the Group and the Company were RM23,028,714 and RM20,673,684 respectively and on the same date, the Group's current liabilities exceeded its current assets by RM5,984,489. The Directors have continued to prepare the financial statements on a going concern basis in view of the following:

- (i) The Group will be able to generate sufficient cash flows from operations to meet their obligations as and when they fall due;
- (ii) the banks and other lenders will continue to provide financial support to the Group and the Company; and
- (iii) the proposed fund raising exercise through issuance of up to 34,517,825 new ordinary shares of RM0.10 each via private placements will be completed. The proposed exercise has been approved by the Securities Commission on 27th March 2007.

In the event that these are not forthcoming, the Group and the Company may be unable to realise their assets and discharge their liabilities in the normal course of business. Consequently, adjustments may be required to reduce the values of assets to their recoverable amounts, to provide for any further liabilities which may arise and to reclassify non-current assets as current assets.

(b) During the financial year, the Group and the Company adopted the following applicable Financial Reporting Standards ("FRS") issued by MASB which are effective for the Group and the Company's financial year beginning on or after 1st April, 2006:-

FRS 2	Share-based Payment
FRS 101	Presentation of Financial Statements
FRS 108	Accounting Policies, Changes in Accounting Estimates and Errors
FRS 110	Events After the Balance Sheet Date
FRS 116	Property, Plant and Equipment
FRS 121	The Effects of Changes in Foreign Exchange Rates
FRS 127	Consolidated and Separate Financial Statements
FRS 132	Financial Instruments: Disclosure and Presentation
FRS 133	Earnings Per Share
FRS 136	Impairment of Assets
FRS 138	Intangible Assets

The adoption of the above revised FRSs have been made in accordance with their respective transitional provisions, if any, and did not result in any substantial financial impact on the results of the Group and the Company except as discussed below:

FRS 2: Share-based Payment

Prior to 1st April 2006, share options granted to employees were not recognised as compensation expense in the income statement. Following the adoption of FRS 2, the total fair value of the employee services received in exchange for the grant of options is recognised as an employee benefits cost in the income statement with a corresponding increase in the equity compensation reserve within equity over the vesting period.

The adoption of FRS 2 has not given rise to any material adjustments to the opening balance of accumulated losses of the prior year or to changes in comparatives. During the financial year, the Group and the Company incurred additional expenses of RM646,790 and RM124,575 respectively in relation to the Company's Employees' Share Option Scheme.

1. BASIS OF PREPARATION (CONT'D)

(c) The new FRSs that are mandatory for the Group's financial periods beginning on or after 1st April 2007, but which the Group has not early adopted, are as follows:-

FRS	Title	Effective for annual periods commencing on or after
FRS 117 FRS 121	Lease The Effect of Changes in Foreign Exchange	1.10.2006
(Amendment)	Rates - Net Investment in Foreign Operation	15.2.2007
FRS 124	Related Party Disclosures	1.10.2006
FRS 139	Financial Instruments: Recognition and Measurement	t Yet to be
		determined by MASB

The above FRS and amendment to FRS are expected to have no significant impact on the financial statements of the Group and the Company upon their initial application.

The Company will apply FRS 117, FRS 124 and the Amendment to FRS 121 from the financial year beginning on 1st April 2007 and FRS 139 when the standard becomes effective.

2. PRINCIPAL ACTIVITIES

The Company is principally engaged in investment holding, software research and development, provision of e-business solutions through the sale of application software and professional services for software customisation and implementation. The principal activities of the subsidiary companies are as stated in Note 9 to the financial statements. There has been no significant change in the nature of these activities during the financial year.

3. GENERAL INFORMATION

The financial statements were approved and authorised for issue by the Board of Directors on 27th July 2007.

The Company is a public limited company, incorporated and domiciled in Malaysia.

The Company is listed on the Mesdaq Market of Bursa Malaysia Securities Berhad.

The address of the Company's registered office is 39 Jalan Yap Kwan Seng, 50450 Kuala Lumpur.

The principal place of business of the Company is located at Lot L3-E-3A, Enterprise 4, Technology Park Malaysia (TPM), Lebuhraya Puchong - Sg. Besi, Bukit Jalil, 57000 Kuala Lumpur.

4. FUNCTIONAL AND PRESENTATION CURRENCY

Transactions and balances included in the financial statements of the Company and each of its subsidiary companies are measured using the currency of the primary economic environment in which each entity operates (the "functional currency"). The financial statements of the Group and the Company are presented in Ringgit Malaysia, which is the Company's functional and presentation currency.

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liablities, income and expenses. Actual results may differ from these estimates.

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONT'D)

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected. The critical assumptions concerning the future that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are outlined below:-

Intangible assets

The Group has intangible assets and the annual amortisation of intangible assets is charged to the income statement. The Group reviews the residual value and useful life of intangible assets at each balance sheet date in accordance with the accounting policy disclosed in Note 6(d) to the financial statements. The Group also assesses annually whether the intangible assets have been impaired. The carrying amount of intangible assets at 31st March 2007 was RM23,778,762 and the annual amortisation charge for the financial year ended 31st March 2007 was RM3,702,527.

Deferred tax assets

No deferred tax assets arising from the unutilised tax losses and unabsorbed capital allowances are recognised as the probability that taxable profits will be available against which the losses and capital allowances can be utilised is uncertain. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised based upon the likely timing and level of future taxable profits together with future tax planning strategies.

Impairment on investment in subsidiaries

The Company reviews the carrying amount of investment in subsidiaries at each balance sheet date by referring to the net asset value of each subsidiary at that date. No reversal was made during the year as the net asset value of the subsidiaries were still in negative position even though the operations have shown some improvement on earnings.

6. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Consolidation

Subsidiaries are those enterprises controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of the subsidiaries are prepared for the same reporting date of the Company and are consolidated using the purchase method of accounting.

Under the purchase method of accounting the results of subsidiaries acquired or disposed are included from the date of acquisition or up to the date of disposal. At the date of acquisition, the fair values of the subsidiaries' identifiable net assets are determined and these values are reflected in the Group's financial statements.

Any excess of the cost of the acquisition over the Group's interest in the net fair value of the subsidiaries' identifiable assets, liabilities and contingent liabilities represents goodwill. The carrying value of goodwill is reviewed at each balance sheet date and is written down for impairment, where necessary.

Negative goodwill represents the excess of the Group's interest in the net fair value of the subsidiaries net identifiable assets, liabilities and contingent liabilities over the cost of acquisition and is taken to consolidated income statement immediately on consolidation.

Intragroup transactions and balances and the resulting unrealised profits are eliminated on consolidation. Unrealised losses resulting from intragroup transactions are also eliminated unless costs cannot be recovered.

(b) Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any.

6. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(b) Property, Plant and Equipment (Cont'd)

Property, plant and equipment is depreciated on a straight line basis to write down the depreciable amount of the assets over their estimated useful lives. Depreciable amount is the cost of an asset less its residual value.

The principal annual rates used for this purpose are:-

Renovations	33 1/3%
Computers and office equipment	33 1/3%
Furniture and fittings	33 1/3%

The residual value and the useful life of property, plant and equipment are reviewed at least at each financial year end. If the residual value and/or the useful life of the asset differ from the previous estimates, the revised depreciation charge will be adjusted immediately in the income statement in the year of the change.

(c) Investments

Investment in subsidiaries are stated at cost, less impairment loss where applicable. The investments are reviewed for impairment in accordance with the accounting policy for impairment of assets.

(d) Intangible Assets

Research costs and development expenditure

Research costs are charged as an expense in the income statement in the year in which they are incurred. Costs incurred on development project are recognised as intangible assets when all the following criteria are fulfilled:

- (a) it is technically feasible to complete the intangible asset so that it will be available for use or sale;
- (b) management intends to complete the intangible asset and use or sell it;
- (c) there is an ability to use or sell the intangible asset;
- it can be demonstrated how the intangible asset will generate probable future economic benefits;
- (e) adequate technical, financial and other resources to complete the development and to use or sell the intangible asset are avaliable; and
- (f) the expenditure attributable to the intangible asset during its development can be reliably measured.

Other development expenditure that do not meet these criteria are recognised as an expense when incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. Capitalised development cost are recorded as intangible assets.

Subsequent cost on capitalised product development expenditure are capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other costs are expensed as incurred.

Development expenditure capitalised are tested for impairment annually, in accordance with the accounting policy on impairment of assets.

Computer software

Computer software which is acquired by the Group are stated at cost less accumulated amortisation and imparment losses, if any.

6. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(d) Intangible Assets (Cont'd)

Amortisation

Capitalised development expenditure and other intangible assets are charged to the income statement on a straight line basis over their estimated useful lives of 8 years.

(e) Government Grants

Asset-related government grants for the development of e-business solutions are deducted from the product development expenditure incurred to arrive at the cost of the e-business solutions. The net carrying amount is amortised on a systematic basis based on the estimated revenue to be derived from the use of the intangible asset over its estimated useful life.

Income-related government grants are recognised in the income statement over the periods necessary to match them with the costs they are intended to compensate.

All government grants are accounted for at fair value on an accrual basis when there is reasonable assurance that the Group has complied with all terms and conditions attached to them and that there is reasonable certainty that the grants will be received.

(f) Inventories

Inventories comprise software purchased for resale and are stated at the lower of cost and net realisable value. Cost is determined on a specific identification basis.

(g) Construction Contracts

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract cost incurred that is probably recoverable and contract cost is recognised as expense.

When the outcome of a construction contract can be estimated reliably, contract revenue and contract cost are recognised over the period of the contract as revenue and expenses respectively.

The Group uses the percentage of completion method to determine the appropriate amount of revenue and cost to recognise in a given period. The stage of completion is measured by reference to the proportion of contract costs incurred for work performed to date to the estimated total costs for the contract. When it is probable that the total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

The aggregate of the costs incurred and the profit/loss recognised on each contract is compared against the progress billings up to the financial year end. Where costs incurred and recognised profit (less recognised losses) exceeds progress billings, the balance is shown as amounts due from customers on construction contracts under current assets. Where progress billings exceed costs incurred plus recognised profit (less recognised losses), the balance is shown as amounts due to customers on construction contracts under current liabilities.

Cost of construction contracts include direct labour and other costs related to contract performance.

(h) Trade and Other Receivables

Trade and other receivables are stated at cost less allowance for doubtful debts.

(i) Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand, balances and deposits with bank and highly liquid investments which have an insignificant risk of changes in value. For the purpose of the cash flow statements, cash and cash equivalents are presented net of bank overdrafts and pledged deposits.

6. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(j) Liabilities

Borrowings and trade and other payables are stated at cost.

(k) Employee Benefits

Short term employee benefits

Wages, salaries, bonuses and social security contributions are recognised as expenses in the year in which the associated services are rendered by employees of the Group. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences, and short term non-accumulating compensated absences such as sick leave are recognised when absences occur.

Defined contribution plan

The Group make contributions to the Employee Provident Fund ("EPF"), the national contribution plan in Malaysia and the Central Provident Fund ("CPF"), a defined contribution plan managed by the Government of Singapore. Contributions to defined contribution plans are recognised as an expense in the income statement as incurred.

Equity compensation benefits

The employee share option programme allows Group employees to acquire shares of the Company. When the options are exercised, equity is increased by the amount of the proceeds received.

The total fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in the equity compensation reserve within equity over the vesting period and taking into account the probability that the options will vest. The fair values of share options are measured at grant date, taking into account, if any, the market vesting conditions upon which the options were granted but excluding the impact of any non-market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable on vesting date.

At each balance sheet date, the Group revises its estimates of the number of options that are expected to become exercisable on vesting date. It recognises the impact of the revision of original estimates, if any, in the profit or loss, and a corresponding adjustment to equity over the remaining vesting period. The equity amount is recognised in the equity compensation reserve until the option is exercised, upon which it will be transferred to share premium, or until the options expire, upon which it will be transferred directly to retained earnings.

The proceeds received net of any directly attributable transaction costs are credited to equity when the options are exercised.

(I) Impairment of Assets

The carrying amounts of the Group's and the Company's assets other than inventories, contract work-in-progress and financial assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset or the cash-generating unit to which it belongs exeeds its recoverable amount. Impairment losses are recognised in the income statement.

The recoverable amount is the greater of the asset's net selling price and its value in use. In assesing value in use, estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

6. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(I) Impairment of Assets (Cont'd)

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount and it is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. The reversal, if any, is recognised in the income statement.

(m) Income Tax

Tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided for in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Temporary differences are not recognised for the initial recognition of assets or liabilities that at the time of the transaction affects neither accounting nor taxable profit. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

(n) Foreign Currency

Foreign currency transactions

Transactions in foreign currencies are translated into functional currencies at the rates of exchange ruling at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to Ringgit Malaysia at the foreign exchange rates ruling at that date. Foreign exchange differences arising on translation are recognised in the income statement.

Financial statements of foreign operations

The results and financial position of foreign operations that have a functional currency different from the presentation currency of the Group are translated into Ringgit Malaysia as follows:-

- Assets and liabilities for each balance sheet presented are translated at the closing rate prevailing at the balance sheet date;
- (ii) Income and expenses for each income statement are translated at average exchange rates for the year, which approximates the exchange rates at the dates of the transactions; and
- (iii) All resulting exchange differences are taken to the foreign currency translation reserve within equity.

(o) Revenue

Design services

Revenue from consultancy contracts, principally relating to the sale of specific e-business solutions to customers, including licence and hardware revenue, is recognised on the percentage of completion method when the outcome of the contract can be estimated reliably. The percentage of completion is determined by the proportion that costs incurred for work performed to date bears to estimated total contract costs or services performed to date as a percentage of total services to be rendered, depending on the nature of transaction. Losses, if any, are recognised immediately when their existence is foreseen.

The unutilised tax losses do not expire under current tax legislations in Malaysia and Singapore. Net deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profits will be available against which the Company and its subsidiaries can utilise the benefits.

The total unutilised tax losses of the Group and of the Company amounted to RM34.2 million and RM4.4 million (2006: RM33.2 million and RM3.5 million) respectively, which gives rise to the unrecognised deferred tax assets.

29. FINANCIAL INSTRUMENTS

Financial risk management objectives and policies

Exposure to credit, interest rate, foreign currency and liquidity risks arises in the normal course of the Group's and the Company's business. The Board reviews and agrees policies for managing each of these risks and they are summarised below:-

Credit risk

Credit risk is the risk that customers and other parties will not be able to meet their obligations to the Group and the Company resulting in financial loss to the Group and the Company. Management monitors credit exposure to customers on an on-going basis. Deposits are placed only with licensed institutions.

The Group and the Company are potentially subject to credit risk arising from concentration of sales to a number of ongoing customers. The Group and the Company are required to perform regular credit evaluation of its customers and maintain an allowance for potential losses when required. The maximum exposure to credit risk for the Group and the Company are presented by the carrying amount of each financial asset.

Interest rate risk

Interest rate risk is the risk that changes in interest rate will have an adverse financial effect on the Group's and the Company's financial position and/or results. The Group and the Company are exposed to interest rate risk due to interest-bearing financial assets being fixed deposits placed with financial institutions. These are placed at varying maturities. The Group and the Company are also exposed to interest rate risk arising from interest-bearing financial liabilities.

Foreign currency risk

The Group and the Company are exposed to foreign currency risks in respect of their investments in foreign subsidiaries and some contract revenue. The currency primarily giving rise to this exposure is Singapore Dollars. During and at the end of the year, the Group and the Company had not entered into any forward currency contracts. However, management will keep this policy under review and will take necessary action to minimise the exposure of this risk.

Liquidity risk

The Group and the Company monitor and maintain a level of cash and cash equivalents and bank facilities deemed adequate by management to finance the Group's and the Company's operations and to mitigate the effects of fluctuations in cash flows. The exposure to liquidity risk is dependent on the continued financial support from the bankers of the Group and the Company.

Effective interest rates and repricing analysis

In respect of interest-bearing financial assets and interest-bearing financial liabilities, the following table indicates their effective interest rates at the balance sheet date and the periods in which they reprice or mature, whichever is earlier.

In respect of cash and cash equivalents, trade and other receivables, trade and other payables and short term bank borrowings, the carrying amounts approximate fair value due to the relatively short term nature of these financial instruments.

30. EVENTS SUBSEQUENT TO BALANCE SHEET DATE

On 10th May, 2007, an additional 17,000,000 new ordinary shares of RM0.10 each were issued and allotted at RM0.117 per share via a private placement exercise approved by the Securities Commission on 27th March, 2007. The proceeds of approximately RM1.9 million from the said placement had been fully utilised in the working capital of the Group as at the date of authorisation of the financial statements.

TAN CHEE PING

Report of the Auditors to the members of Nova MSC Berhad

We have audited the financial statements set out on pages 22 to 50. These financial statements are the responsibility of the directors.

It is our responsibility to form an independent opinion, based on our audit, on the financial statements and to report our opinion to you, as a body, in accordance with Section 174 of the Companies Act, 1965 and for no other purpose. We do not assume responsibility towards any other person for the contents of this report.

We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free of material misstatement. Our audit includes an examination, on a test basis, of evidence supporting the amounts and disclosures in the financial statements. Our audit also includes an assessment of the accounting principles used and significant estimates made by the directors, as well as an evaluation of the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion:-

- (a) the financial statements are properly drawn up in accordance with the Financial Reporting Standards in Malaysia and the provisions of the Companies Act, 1965 so as to give a true and fair view of:-
 - (i) the matters required by Section 169 of the Companies Act, 1965 to be dealt with in the financial statements; and
 - (ii) the state of affairs of the Group and of the Company as at 31st March 2007 and of their results and cash flows for the year then ended;

and

(b) the accounting and other records and the registers required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

We have considered the financial statements and the auditors' report of the subsidiaries for which we have not acted as auditors as indicated in Note 9 to the financial statements.

We are satisfied that the financial statements of the subsidiary companies that have consolidated with the Company's financial statements are in form and content appropriate and proper for the purposes of the preparation of the consolidated financial statements and we have received satisfactory information and explanations required by us for those purposes.

The auditors' reports on the financial statements of the subsidiary companies were not subject to any qualification and did not include any comments made under subsection (3) of section 174 of the Act except for the modification as disclosed in Note 9 to the financial statements.

Without qualifying our opinion, we draw attention to Note 1(a) of the financial statements. The Directors have prepared the financial statements on a going concern basis based on the factors disclosed in the said note. In the event that these are not forthcoming, there is substantial doubt that the Group and the Company will be able to continue as going concerns and, therefore, as appropriate realise their assets and discharge their liabilities in the normal course business. Consequently, adjustments may be required to reduce the values of assets to their recoverable amounts, to provide for any further liabilities which may arise and to reclassify non-current assets as current assets.
